DETAILED ACTION

Response to Amendment

1. This Office Action is responsive to the Amendment filed 5/30/06.
2. The Amendment filed 5/30/06 successfully overcomes the rejections set forth in paragraphs 3-6 of the Office Action mailed 2/1/06. Accordingly, these rejections are withdrawn.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 33-35, 38, 47 and 48 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 2-15

Art Unit: 1756

of copending Application No. 11/289,391. Although the conflicting claims are not identical, they are not patentably distinct from each other for the reasons of record as set forth in paragraph 3 of the Office Action mailed 1/10/05, and as further discussed below.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

4. Claims 39-46 are allowed.

Response to Arguments

5. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection. Applicant notes that claims 12-25 of copending application 09/928,349, which were cited in the provisional double patenting rejection set forth in paragraph 3 of the Office Action mailed 1/10/05, are no longer pending in that application but rather have been canceled (see the Petition filed 6/16/06). However, these claims have been refiled as claims 2-15 of 11/289,391. Accordingly, a provisional obvious double patenting rejection over the refiled claims is set forth above.
